HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

A H. ZAHNISER,
L W WALLACE
Portland Oregon, June 17 1869 jy18dtm

By Overland Telegraph.

[DISPATCHES TO THE OREGONIAN.

DATES TO JUNE 28.

Washington News.

PHILADELPHIA, June 28.—The *Evening Telegraph* says, on the best authority, that the correspondence between Grant and Borie, published in the New York papers, is a forgery.

WASHINGTON, June 28.—The President has appointed Major George Hay, of Illinois, Secretary of Legation to Spain. Major Hay was Assistant Private Secretary of the late President Lincoln, and afterwards Secretary of Legation to France, then Charge D' Affairs to Vienna.

The naval officers, headed by Vice Admiral Porter, paid their respects to the new Secretary of the Navy to-day.

New York News.

NEW YORK, June 28.—There were four deaths from sunstroke to-day.

During the storm yesterday much damage was done in this vicinity. The Seaside House, Rockaway, was struck with lightning and eight persons stunned, and only one restored with great difficulty.

NEW YORK, June 28.—The Ocean National Bank was burglariously entered last night and $20,000 in Government bonds and an amount of securities taken.

NEW YORK, June 28.—At the Ocean Bank burglary, last night, several safes were blown open and everything found in confusion. Only $20,000 of bonds had been stolen, the thieves leaving a bag containing $50,000 in gold in one of the safes and over $120,000 gold certificates, untouched.

NEW YORK, June 28.—The amount of private deposits stolen from the Ocean Bank does not exceed a quarter of a million. The bank is not responsible for these losses, which were nearly all bonds.

Heavy Storms.

BUFFALO, June 28.—There was a violent storm here last night. It is feared much damage is done to the shipping on the lakes.

PHILADELPHIA, June 28.—A tornado yesterday partly demolished the Sixth street depot. A brick house was injured. Chase's shoe works were unroofed, and also several other houses. No lives lost.

WATERLOO, CANADA, June 28.—The heavy rain yesterday gave rise to a great freshet, equal to that of early spring. Five mill dams that stood fast then, yielded to the present freshet. A large number of bridges and fences have been carried away. The damage to farm property is considerable.

Virginia Politics.

RICHMOND, June 28.—Gen. Canby writes in reply to a letter of B. G. Wells, of the *State Journal*, containing an argument to sustain his position requiring members of the Legislature to take the iron clad oath. He contends that the reconstruction acts require it and that he is acting in conformity with all precedents in enforcing the measure.

Cuban Filibusters.

NEW YORK, June 28.—There is little additional information in regard to the frustrated Cuban expedition. Rumors are afloat that Marshal Barlow is endeavoring to ascertain the hiding place of the men who were to have sailed on the steamer *Catharine Whiting*, who are supposed to be hiding on Long Island.

Virginia Politics.

RICHMOND, June 28.—The Conservative General Committee has determined not to allow General Canby's opinion to influence the course of the party. The present candidates, all of whom are eligible under the Fourteenth Amendment, will be kept in the field. The Committee say that the iron clad oath will never be presented in practical form. The Chief Justice, while here, expressed the opinion that there was no authority in law for Congress to exact an iron clad oath of a member of the Legislature.

Notable Death.

CINCINNATI, June 28.—Hon. Thomas R. Ross died near Lebanon this morning: aged 80 years He was the law preceptor of Thomas Corwin, and represented his District in Congress in 1820.

Nashville Affairs.

NASHVILLE, June 28.—Receiver Bass gave his bond to day, and will be inducted into office. There is no opposition by the city officers. The Receiver will have charge of the city until the municipal election in September

Louisville and Cincinnati Railroad

LOUISVILLE, June 28.—The new air line railroad from Cincinnati to Louisville was opened to the public to-day. Trains arrived here from Cincinnati on schedule time, making the distance in five hours.

Miscellaneous.

DETROIT, June 26.—At the annual meeting of the stockholders of the Michigan Central railroad to day, the following gentlemen were elected Directors: James F. Joy of Detroit, John W. Brooks, Nathaniel Thayer, John M. Forbes, Sydney Bartlett of Boston, Edward Jones, George F. Talman, Moses Taylor of New York, and O. Cornung of Albany, N. Y.

Borgert, the absconded paymaster's clerk, who carried away $30,000 of government funds from the Navy Yard at Brooklyn, has been arrested in Texas.

The annual Spring regatta of the Yale College Clubs occurred on Saturday. The University crew won in 19 minutes, 45 seconds. Distance three miles and forty five feet.

ST. LOUIS, June 28.—Dispatches say that the country west of Junction City, Kansas, is inundated. Many houses, stock and crops are washed away.

It is reported that 25 persons were drowned in Chapman creek.

The town of Oberlin was flooded and two persons drowned.

ELMIRA, N. Y., June 28.—The bridge near Corry, on the Atlantic & Great Western Railroad, was washed away and a passenger train fell on and killed the engineer. None of the passengers were reported killed.

ALBANY, June 28.—Two locomotives and three cattle cars from Cincinnati, were smashed by a collision, on the Susquehanna Railroad. No lives lost.

PROVIDENCE, June 28.—Vice President Colfax has arrived from Newport and was heartily received at the City Hall, where he made a brief speech.

NEW ORLEANS, June 28.—The Board of Flour Inspectors appointed by the Governor, under the act of the State Legislature, having enjoined the old inspectors, were tested as to qualification, on Friday, by the Committee on Chamber of Commerce, on 60 barrels flour. The lowest number of errors was 25; highest, 39—resulting in the discharge of the new inspectors and the reappointment of the old Board.

OTTAWA, June 28.—The official *Gazette* contains a proclamation setting apart July 1st in the Dominion as a day of general jubilee and holiday for present and subsequent years

BY ATLANTIC CABLE.

BREST, June 27.—Up to last evening the *Great Eastern* had made 677 knots from Brest and paid out 775 knots of cable. There has been no fault in the cable. The interruption noted a few days ago, is now supposed to be from imperfect land connections. The signals are perfect and all well.

LONDON, June 28.—The *Times* has an article reviewing the policy of the U. S. Government in dealing with the Indians. It praises its patience and forbearance in the past, and it believes that the course which the Government is being driven to adopt is unavoidable. No terms of peace can continue. Terms are impracticable with unmitigated and, for the most part, irreclaimable savages. They must disappear or the American nation be checked in its growth and progress

In the House of Commons to-night Mr. Low, Chancellor of the Exchequer, announced that Her Majesty's Government intend to propose quarterly payments of interest on the public securities.

LONDON, June 28,—The House of Commons passed the bankruptcy bill to a third reading. In House of Lords to-night Baron Westburg gave notice of an amendment to the Irish Church bill, granting out of the present revenues two millions sterling to the Catholics, one million to the Presbyterians, and the balance to the Irish Church.

The Queen gave a public breakfast in honor of the Viceroy of Egypt at Buckingham Palace.

PARIS, June 28.—The Emperor has written a letter to Schneider, President of the Corps Legislatif, in which he says the policy of the Government has been made manifest with sufficient clearness to prevent an equivocal interpretation. Now, as before the election, it will continue to perform the task of reconciling a strong power with sincerity and liberal institutions. Schneider's remonstrance was withdrawn.

MADRID, June 27.—In the Cortes the Republican members were warned that their presence in the Chamber was permitted as an act of patriotism, but that they could not be tolerated as accomplices in a scheme for building up a Republic, that the present combination of affairs will not be long continued, and it would become necessary to repress the people or anarchy would result.

LIVERPOOL, June 28.—According to official reports, twenty-eight hundred emigrants left that port for America last week.

A Sibylline Trio.

The room was pleasantly full. A square room, with angles mellowed in the chaste light, and tempered glow of wax candles and olive oil. A little apart from the groups scattered here and there over the Turkish carpet, sat three ladies on a red sofa, just athwart the drapery of the window.

Little, littler, littlest, might have been the analogy in the mind of a child beginning her grammar.

"My dear, I wish to show you something which, one of these days, you will be proud to remember. Do you know who those ladies are?"

Every child of the circle knew well the pleasant face of "Little"—now bending across "Littler to Littlest"—with its smile of perennial youth and its setting of silver.

"Mrs. Somerville"

"Yes, the next"

Not so familiar or so magnetic, the more rotund, rubicund, and rather set countenance of the silent listener, corresponding to the secret denomination of "Littler."

"Mrs. Stowe?"

"Right again; you know the third.

Yes, we knew, and we did not know, her of the fragile form, drooping with its curls of black, like a weeping-willow draped in funeral color. The association was gloomy, and we stood in awe of the name we tremblingly whispered.

"Mrs. Browning."

"Yes, the three most distinguished women of our era, side by side. Take your fill of the sight and the thought."

It was a gathering of literati in Florence; in the good old time, before the dreamers along the banks of the placid Arno had awakened to the sense that they were men. When the artist and the student flocked there, to follow uninterrupted by the encroachment of material progress, each his vocation. When no shriller sound than the peddler, crying his wares in soft Italian, had as yet jarred the clear and liquid atmosphere. Where there was no steam-engine nigh, to damper their fancies with its vapor and resolve their dreams to smoke; though the relentless Mercury of the nineteenth century was even now on his weeping course to the very gates of the favored city.—*Putnam's Magazine for June.*

DEATH OF ANOTHER PIONEER.—Another of the pioneers of the plains is gone. Col. William Bent died at his residence on the Las Animas, in this county, on Wednesday May 19th. He was one of a family famous in the annals of the West. The name of Bent is familiarly associated with the names of Carson, St. Vrain, Vasques, and other prominent pioneers. Col. Bent has evidently spent nearly forty years of his eventful life in the Rocky Mountain region. He had scarcely arrived at the age of manhood before his life of adventure began, and from that early period of his life until the present time his home has been in the far West. The fur trade before the supply began to fail, was the special attraction that kept him away from the haunts of civilized men. To the prosecution of that business he brought courage, unturing energy, and a large degree of business capacity. Bent's Fort, which has for a long time been a prominent point on the maps of the plains and a widely known rendezvous for trappers, traders, and the motley population which throngs the frontiers, was erected by him in connection with his surveying associate, Col. Ceran St. Vrain. There long before the first advancing wave of civilization began to roll in upon the country, Bent was accustomed to dispense to army officers and adventurous travellers such courtly hospitality as was strangely at variance with his wild and savage surroundings. He was one of a large family, all the members of which were of sterling and striking character. He was the brother of Charles Bent, the first Military Governor of New York, after the conquest of that territory, who was murdered in the insurrection of 1847. His name will be long identified with the settlement and development of every large district of country now rapidly filling with a permanent population. His estate is variously estimated at from $150,000 to $25,000 in value. We believe he was about fifty-nine years of age. *Colorado Chieftain May 23d.*

THE CHINESE.—In a communication published in the *Herald* yesterday, the ground was taken that the American people should not encourage the immigration of Chinese, but should rather discourage it. Among other reasons given were that the Chinese came here not to settle, but to "drain the land of its wealth," and go home; that they are regarded as a nuisance by the people in California; that they say their prayers to "mean looking idols," that they are industrious and live on very little that they work at everything and are content with very little pay. We do not see the force of these reasons. We are not afraid that John Chinaman will "drain the land of its wealth." Part of the wealth of the land is the labor he does here, and he cannot take that away. If he does the labor cheaply he will, of course, take away all the less money. As to his living on very little it is because he was brought up to it in China. He will get in the habit of eating more in this country if we have patience. As to his devotions, we, as the friend of true religion, are glad that he says his prayers to anything. If his idols are now "mean looking we can only hope that when he becomes half a Yankee he will have a better taste in art but the architecture of some of our own churches is against that hope. As for the Chinaman not coming here to settle, we can but say, let him go when he wants to. If he is such poor material our correspondent ought to be glad to get rid of him.—*N. Y. Herald June 12th*

THE CAUSE DISCOVERED.—A Democratic friend, writing from Portland, on a matter of business, makes the following slight digression to explain the cause of the late defeat of his party in that city. "You see," he remarks "we nominated a good ticket, and the boys worked together manfully to secure its success and it would have been successful had it not been for the simple fact that upon counting the votes, after the polls closed, it was discovered that we had failed to deposit a sufficient number of ballots by some three or four hundred. Had it been otherwise we should have certainly elected our whole ticket." That's satisfactory.—*Journal.*

A bachelor uncle, to whom his niece applied for advice on the question of choosing between two suitors, one of whom was rich and the other poor, the latter being the most ardent as well as the favorite lover replied "My dear, the question being stripped of all illusory elements, your choice simply lies between love and beef. Now love is an idea, while beef is a reality. Love you can do without, but beef you must have. Therefore make sure of your beef."

Among the costly new residences which will be built at New York this season are those of Peter Lorillard, $200,000, ex-Mayor Opdyke, $125,000 and Charles O'Connor, $50,000.

THE WEST.

The North Missouri Railroad has commenced selling tickets from St. Louis to San Francisco, at $108 15.

It is said that ex Secretary Seward is bent on seeing his Alaska purchase and will visit that region this summer.

The Nevada *Gazette*, addressing the editor of the Grass Valley *Nationale*, says: "He knows very well and dares not deny that there are hundreds of Chinese in Nevada county that pay more taxes, perform more honest labor, and do more to develop the resources of the country than he does."

It is stated upon very good authority, says the San Francisco *Chronicle*, that General Miller, Collector of this port, has tendered his resignation in favor of a friend of Hon A. A. Sargent, and that the sudden departure of that gentleman overland for Washington a few days ago, was connected with this business.

From the Yreka *Journal* The big ditch is damaged to a much greater extent than at first supposed, upwards of six or seven miles being broken by the thunder storm of two weeks ago. Thirty Chinamen are employed in shoveling constantly, and seven or eight white men are working night and day at the upper end ground sluicing, where it is filled up. It will be probably three weeks yet before the ditch is in repair.

The Two Riots.

[From the Sacramento Union.]

There was a riot during the late municipal election at Washington. Election riots are not unusual in American cities of 100,000 inhabitants. Indeed there is seldom an election in New York without a riot, and San Francisco has not been wanting in such diversions in good old days of Democratic majorities when there were Abolitionists or reformers to be punished by the ringmasters of that party. But this Washington riot was quite another affair. There the negroes were the rioters and Democrats the sufferers. True, there was not much blood shed, but there was a great deal of red blood shown and some hard words said, and the police had to be called out in force, and even the President rode out to view the scene and take account of the killed and wounded. The reprehensible feature of it was that the rioters were black men—ignorant black men—who knew no better way to punish their political enemies than to raise a hurly-burly at the polls and d[illegible] themselves, just as mean, low, ignorant and prejudiced whites had so often done before them. And this is why all the Democratic papers in the land, especially in California, have elaborated on the enormities of the affair and indulged in jeremiads upon the evil of allowing "niggers" to vote and to riot. They hold, with much magnanimity to the whites, that black men ought only to have the right to imitate the good examples of the superior race, but not the evil, and they very [illegible]ably expect that these ignorant and prejudiced blacks should always have better [illegible] than to put on the airs of riotous whites not more ignorant or prejudiced than themselves. If they don't come up to [illegible] of votes they must be denounced as unfit to exercise the right of franchise, and be turned into so many cudgels to punish the Republican party who helped them to their votes. Rioting, they claim, is an exclusive privilege of the whites. And when twelve hundred Chinese, docile, innocent of all offense, not asking anything but the right to earn their bread by working for it, and promised the protection of our laws by a solemn treaty, land in San Francisco and are set upon by a gang of white cutthroats, cruelly beaten and treated in a manner to provoke bloody resistance, not one Democratic paper of that city has a word to say against the rioters or in favor of the law and those who suffered from its unprovoked violation. Not one word to stir up the foreign police of that city to a better sense of their duty. Reflecting people will naturally ask why these journals go to Washington to hunt up complaints against rioters, when they have so much better cause to complain against the law-breakers in their own streets. In Washington there may have been some circumstance not known to us which provoked the blacks to violence. Here there was none. The

Important Facts!!!

THE CAPITAL STOCK

—OF—

THE PACIFIC MUTUAL LIFE INSURANCE CO.,

OF CALIFORNIA,

IS PAID IN,

IN GOLD COIN!!

—AND—

Cost Nothing to be INSURED!

This is Additional Security, Without Cost to the Insured, that the Capital Stock bears its own Interest!

THE PUBLIC CAN ACQUAINT ITSELF WITH the business reputation and standing of the Stockholders and Directors of the Company, and determine from that knowledge whether the affairs of the Company are likely to be honestly and fairly administered for the benefit of the Insured

POLICIES ISSUED BY THE

PACIFIC MUTUAL

ARE NON-FORFEITABLE,

And by the Laws of California,

EXEMPT FROM EXECUTION!

The Company will at any time make AN ADVANCE of Cash on its Policies as future Dividends

No permits or extra rates required for traveling East or in Europe

Dividends actually non-forfeitable.

Thirty days grace on the payment of all Premiums.

After two annual payments the Company will, two years after the last payment, issue either a paid up Policy for the *proportion of Premiums received*, or pay the equivalent in cash.

The rate at which we have been sending money East for Life Assurance will amount, with interest, to at least Ten Million Dollars by January 1, 1870. This sum, enormous as it seems, is totally eclipsed by the magnitude of the interest which the Coast is losing for want of it. For instance: Its yield in the East at 6 per cent. compounded annually for ten years, is $6,852,167 27; here at 12 per cent, for four years, and 10 per cent. for six, compounded monthly, $35,690,906 62, or a difference of over eighteen millions!

With these facts in view what Company will likely pay the largest Dividend? The funds of the PACIFIC are all loaned at 1 to 1½ per cent. per month.

Of this large sum it is computed that Oregon and Washington Territory have contributed about one-fourth. This involves the sending away annually, to keep up the Premiums on Policies already issued, at least six or seven hundred thousand dollars, which if continued will soon drain the State of all its cash. If to California, it finds its way back here for our productions, a market for which we must look for them.

The applicant need not wait two or three months to know if he is accepted or rejected, but can receive his Policy in less than two weeks, and in case of death the money will be paid to his wife in as short a time.

HYGEIAN HOME

WATER CURE,

637 California Street,

Opp. St. Mary's Cathedral, bet. Kearny & Dupont Sts.,

SAN FRANCISCO.

DR. BARLOW J. SMITH

WOULD RESPECTFULLY INFORM HIS FORMER patrons, and all who desire the professional services of a Hygienic Physician, that he has just returned from the East, after an absence of four months, during which time he has visited nearly all the Water Cures in the Eastern States, and the various Hygienic Establishments of New York City, Boston and Philadelphia; and with this new experience feels more fully prepared than ever to meet all the demands that invalids may justly claim who desire to be cured by this rational form of medication.

In January last DR. SMITH purchased the extensive lot corner of Quincy and California streets, with the buildings thereon, which he has fitted up, at great expense, for the accommodation of PATIENTS and BOARDERS, with a greater variety of baths for the cure of DISEASE as well as popular bathing than is to be found in any Water Cure in the United States.

HYGEIAN HOME is the only Regular Water Cure in San Francisco, and by far the most extensive and complete Hygienic Institute on the Pacific Coast.

And we offer to Ministers, Teachers, Lawyers, Miners, Merchants, Mechanics, Farmers, and all worthy persons, especially those who have tried drugs faithfully without being restored, and who are still desirous of regaining health by this rational system of medicine, the hospitalities *of our Hygienic Home and Cure.* Young men who have become debilitated or lost their health by excessive toil, exposure or enervating habits, contracted through ignorance of physical laws, may with us find more of the encouragement they need, and means that will restore them to health, than elsewhere in California.

There is not one man in twenty suffering from Rheumatism, Neuralgia, Gout, or Diseased Liver, Chills and Fever, Dyspepsia, Drug or Secondary Diseases, Spermatorrhea or Seminal Weakness, Impotency or Nervous Debility, Weak or Inflamed Eyes, Bronchial and Catarrhal Affections, Disease of the Heart, Lungs, Kidneys, Constipation, Paralysis, Scrofula, Piles, Inflammation of the Bowels, Chronic and Acute Diarrhea, Stiff Joints, Oak Poisoning, Weak Backs, Hip Disease, Salt Rheum and many other Diseases common to Men and Women, that cannot be permanently cured in from two to six weeks by Water Cure and Hygienic treatment. Not only will they get cured, but they can learn how to keep well when they go to their mountain homes, their mines, their farms, their stores, and all this for one-half what it would cost to take drugs.

Terms $20, by the single week, or $60 for four weeks. Board, Room and Treatment (in all ordinary cases).

N. B.—All suffering from cutaneous diseases are treated in separate baths, which are never used by persons bathing for cleanliness The greatest care and neatness is observed in this respect No contagious diseases, such as Small Pox and Ship Fever, treated in the Institution.

We have a separate Medical Department for Ladies, which is attended by a thoroughly competent Woman, while the private residence of DR. SMITH, which is connected with the Home, is chiefly devoted to the accommodation of ladies desiring Hygienic medical treatment.

We have for the past ten years made the treatment of female diseases a specialty, and have treated a great number of females, both in the Institute and in their private residences in this city, Sacramento and Oakland, who were suffering from Displacements, Prolapsis Uteri, Uterine Hemorrhage, Sterility, Curvatures of the Spine, Inflammations, Congestions, and ALL NERVOUS DISEASES, together with disease common to all

The ease and rapidity with which the varied diseases and conditions above mentioned have been overcome, especially in the vicinity of the Bay, fully warrant us in declaring that there is not one female in a hundred who is thus afflicted but that can be made well and happy in from three to six weeks by thorough Hydropathic and Hygienic treatment at our Cure From all who have come to us and been treated, we have yet to learn a single regret from Husband or Wife of the time, means or trouble they expended in HYGIENIC MEDICATION, for they not only get well, but learn how to keep well.

Terms for Ladies, $20 a week, or $100 for six weeks Board, Room and treatment.

DR. SMITH gives FREE Lectures to his patients every Wednesday evening, and also Lectures before the Ladies' Hygienic Society the first Wednesday in each month.

BARLOW J SMITH, M D.,
Proprietor and Consulting Physician

R S MACBETH, M D.,
Attending Physician jun5dlm4w4t

Proposals for Rubble Stone.

SEALED PROPOSALS WILL BE RECEIVED AT the Office of the Superintendent of Construction of the U. S. Custom House at Portland, Oregon, until 12 o'clock M., the 9th day of July, 1869, for furnishing and delivering at the site of the building, 250 cubic yards of Rubble Stone from the Willamette River Quarries, of sound quality

Proposals will be made for the cubic foot of stone delivered, inclusive of all freight, hauling, etc., measurements to be made on delivery by the Superintendent, and 10 per cent of all payments retained until completion of contract Payment in U. S. Currency.

The delivery of materials will begin immediately on signing of the contract, and to be completed in 30 days thereafter The Department reserves the right to reject any or all proposals All bids must be accompanied by a bond of two responsible persons in the sum of $1,000 as security that the bidder will accept and perform the contract if awarded to him The sufficiency of the security to be certified to by the U. S. District Judge.

Proposals should be endorsed "Proposals for Rubble Stone," and addressed to E. ST. JOHN, Superintendent Custom House and Postoffice, Portland Oregon

COMMON COUNCIL.—Monday evening, June 28th, 1869, the Common Council of the city of Portland met pursuant to adjournment; his Honor Mayor Boyd in the Chair.

Present—Councilmen Benner, Breck, Cree, Hallock, Hopkins, Lewis, Norris, Porter and Ripley.

Journal of last meeting read and approved.

PETITIONS, MEMORIALS, ETC.

Petition of Patrick Norton in relation to sewer on Taylor street, referred to Committee on Streets and Public Property.

Petition of F. N. Blanchet and others in reference to grade on Mill street, referred to same Committee.

Remonstrance against proposed change of grade on Third street, referred to same Committee.

REPORTS OF STANDING COMMITTEE.

Committee on Accounts and Current Expenses reported the Marshal's report on collection of delinquent taxes, as correct. Report adopted.

Committee on Streets and Public Property reported bill of Harlow & Thomas correct, and recommended its payment. Report adopted.

Same Committee reported the fence on block 132 as completed according to contract. Report adopted.

REPORTS OF OFFICERS.

Report of City Surveyor relative to cistern cover on C and Second streets, the same being below the grade. Referred to Committee on Streets and Public Property and to the Street Commissioner.

CLAIMS AGAINST THE CITY.

Bills of Harlow & Thomas, $66 50; James Dougherty, $4; John Thompson, $393; Michael Dougherty, $2; E. J. Northrop & Co., $9 50; A. D. Millen, $1 50; Thomas Nicholson, $72, paid.

Bill of A. D. Shelby, $8, paid less 25 cents per gallon on coal oil.

Bill of Mr. Dougherty for carting "drunken injun" to city jail, $1, rejected.

ORDINANCES.

An ordinance presented by Councilman Lewis, for a special fund to be known as a Building Fund, read twice and laid over under the rule.

An ordinance by the same member, making an appropriation to the Building Fund, read twice and laid over under the rule.

A substitute for the ordinance providing for the improvement of Jefferson street was adopted.

Ordinance adopting the report of the City Surveyor in the matter of the extension of Jefferson street, read third time and passed.

An ordinance making an appropriation of $128 75 for the relief of J. H. Lappeus, read a third time and passed.

An ordinance creating a Building Fund and making loans out of the same, read a third time and passed, by yeas, Councilmen Cree, Hallock, Norris, Porter and Ripley—5. Noes, Councilmen Benner, Breck, Hopkins and Lewis.

This ordinance authorizes the Committee on Ways and Means to loan the sum of $15,000 realized from the United States for block 172, for any period not exceeding three years.

MISCELLANEOUS.

A resolution accepting the fence erected around block 132 by the O. C. R. R. Co. was read and adopted.

On motion Council adjourned.

TO DEALERS IN TOBACCO AND SEGARS.—The following is taken from a circular issued by Commissioner Delano, which serves to explain the duties and liabilities of dealers in tobacco, snuff and cigars, selling old stock unstamped, and letting of old stock with new stock &c.:

"[illegible] who knowingly and willfully sell tobacco, snuff or cigars unstamped, in violation of the provisions of sections 78 and 94, should be reported to the District Attorney for prosecution under said sections."

"I am directed to state that after the 15th of February, 1869, fine cut chewing tobacco, all smoking tobacco and snuff, and after the first day of April, 1869, all cigars, and after the first day of July, 1869, all other articles of tobacco shall be stamped before sold or offered for sale. Tobacco, snuff and cigars kept constantly in sight upon the counters or shelves, or in the show cases of dealers, and accessible if mixed indiscriminately, the unstamped and the stamped, must be regarded as offered for sale."

"Dealers who have on hand a stock of old and unstamped goods, if they do not wish to stamp the same until they have made sale of it, must retire it from their sales, and show cases, and store it by itself, and separate their stamped goods from such unstamped goods, &c. &c."

"Dealers are required to make monthly inventories so long as they have any unstamped goods on hand, manufactured in the United States or imported prior to the act. Therefore, when any dealer fails to make his monthly inventory, an inquiry should be instituted to see if the stamps purchased of the Collector correspond in number, denomination and value those remaining for the kind, quantity and number of the tobacco, snuff and cigars on hand as per his inventory at the time when the same became liable to be stamped; and should it be found that no stamps have been purchased or not enough purchased to stamp the goods on hand at the several periods when they became liable to be stamped, then the dealer may properly be called to account for this discrepancy."

"Dealers who have made no inventory, and still have in their possession unstamped goods may properly be called to account for the absence of stamps on those goods."

"It is spirits cannot not only see that all packages sent out by them bear the stamps and brands which are required by law to be placed upon the same, but also that packages received by them from other dealers are properly stamped and branded before they receive the same. The plea of ignorance on the part of dealers will not hereafter save from seizure spirits not properly stamped and branded."

C. DELANO,
Commissioner."

CALIFORNIA WHEAT CROP DAMAGED.—The San Francisco [illegible] of the 24th says: "News is arriving from many of the State that the damages to the wheat crop by rust is more and more apparent, and in some localities an almost total [illegible] inevitable. The valley of the coast, and the San Joaquin river crops will be the most seriously affected, being more under the influence of fogs. The heavy fogs of the past week have been extremely destructive."

The *Bulletin* of the 23d inst. says: "If anything were necessary to accomplish the total destruction of the wheat crop in this State, in the districts affected by rust, the fogs for the past week has been eminently adapted to bring about such a result. For the past three or four days fogs have been so moist as to actually stay by the dust, and to force upon one's mind the impression that it has been raining. These fogs, in connection with the hot sun during the middle of the day, have had a disastrous effect on the wheat crop which farmers they have promised. The amount of cloudy weather experienced since the 15th of May has been of great assistance to the rust in its work. We have no data upon which to form an accurate estimate of the damage done to the growing wheat, but as a rough guess, we should say that the crop has been damaged by the rust to the extent of about 4,000,000 bushels."

"As an offset to the damaged crop prospects in California and Oregon, there is now opening a better outlook for a market. Prices have gone up in the New York market slightly, while the rise at Liverpool is decided and more remarkable than anything that has occurred in the grain market within the year. The causes of it, according to the New York *Commercial Advertiser*, is that the Russian Government has entered the grain market of Germany as a purchaser. Russia is one of the largest grain supplying countries in the world, for during England more than that country buys from all other sources, including the United States, its importance as a purchaser of grain is the more significant. It must eventually exercise an appreciable influence upon the American breadstuffs trade. The United States will be called upon to furnish the bulk of the deficit, and an increased activity in the export demand will be the result."

COMPLIMENTARY TO MR. TRAIN.—The Emmett Guard turned out last evening at about ten o'clock, and paraded in front of the Cosmopolitan Hotel, gave a complimentary [illegible] to George Francis Train. In answer to calls, he came out on the balcony and responded briefly, assuring his audience that he believed thoroughly in a brilliant destiny for Ireland and the Irish people, to be accomplished in the not distant future. In the course of his remarks he said that he had come up here intending to complete an organization with which to go over and capture British Columbia; but since his arrival here he had learned enough of the country over there to satisfy him that its capture is not worth while, and he had accordingly sent the following dispatch to his Irish [illegible] at San Francisco:

VANCOUVER, June 28th.

[illegible] under Fenian Expedition, San Francisco: Notification Expedition, British Columbia played out—[illegible] bankrupt—country depopulated—mines failed—[illegible] demoralized—property worthless—honey-bees gone; [illegible] wasted—[illegible] heat worth taking—[illegible] perfect repudiative of home government.

GEO. FRANCIS TRAIN

The reading of the dispatch was received with great laughter and cheers. Before closing, Mr. Train called for three cheers for Ireland and the Irish people—given with a will. Then three cheers for the American Union [illegible] enthusiastically. Then three groans for John [illegible] responded to with three deep, terrible groans, and three cheers. Mr. Train's speech was quite brief, but he gave us a [illegible] of his secret in rousing up his hearers to enthusiasm. His manner is thoroughly earnest, his gestures demonstrative, his face expressive of the emotions he [illegible] to rouse, his voice loud, utterance ready and rapid, and the whole man full of personal magnetism. He is just the man to carry a crowd off in triumph whether he utters wisdom or nonsense; he would be equally successful in either.

PLAYED OUT.—The velocipede mania seems to have become played out at San Francisco, as well as here and elsewhere. The *Oriflamme* brought about a dozen or so of second hand machines, consigned to somebody here. They forcibly remind one—though *de machines*, they are not all good ones—of a band of worn out old steeds, [illegible] out to shirk for themselves and to die. Verily, "Our days are as the grass."

BACK AGAIN.—Mr. Eugene Semple, after an absence of [illegible] months at the East, returned by the steamer *Oriflamme*. We have only seen him dimly, at a distance, but we took the impression that he was looking all the [illegible] the trip.

[illegible].—The *Oriflamme* brought up about 260 tons [illegible].

CONGRESSIONAL COMMITTEE COMING TO PORTLAND.—The San Francisco *Chronicle* of the 24th mentions the arrival at that city, on the 23d inst. of the members of the Committee of Ways and Means of the House of Representatives and says: "It is announced that the scope and powers of the Committee are based on a resolution introduced by Mr. Schenck, of Ohio, who is Chairman of the Committee, but is prevented by ill health from being here), that the Committee should have the privilege and power during the recess of Congress to visit the different commercial points and enquire into the management and collection of the revenue customs and the internal workings of the system, and of the bonded warehouses; to hold sessions in cities they might visit officially, and make suggestions of reform where deemed necessary; and to report to Congress on the second Monday of December next." The Committee will probably remain on the coast a month. They will visit Portland, where an official session will be held and probably Alaska.

The Committee consists of Hon Samuel Hooper, Massachusetts; Hon William B Allison, Iowa; Hon William D Kelley, Pennsylvania; Hon. Horace Maynard, Tennessee; Hon D McCarthy, New York; Hon Austin Blair, Michigan; Hon James Brooks, New York; Hon S S Marshall, Illinois; the Committee of Ways and Means of the House of Representatives: with George A Bassett, of New York city, Secretary of the Committee, F H. Smith, of Washington City, stenographer; J. S. Samson, of New York city, Deputy Sergeant-at-Arms, W H Smith, (colored) caterer.

LECTURES BY GEORGE FRANCIS TRAIN.—Judging from the programme we hear of, as laid out by George Francis Train, that gentleman cannot intend that the grass shall grow much under his feet while in Oregon. He is to lecture to-night at Oro Fino Theater, to-morrow night at the Dalles, and the three succeeding nights of this week at Oro Fino Theater. On Monday he is to deliver the Oration on the occasion of the celebration. After that, we presume he is to whip off, comet-like, to speak somewhere else. It is clear enough that he is now in no peril of becoming tongue-covered or rusty. The advertisements announce that his lecture to night will be on "the 116th of a course of six hundred on his way to the White House in 1872, since his incarceration in the Irish Bastiles." So far as intimated to the public his lectures will relate chiefly to his experiences in Ireland and the relations existing and that may exist, between England, Ireland and the United States. We learn, authoritatively, that he will devote some time to the consideration of affairs in general in Oregon, with a view to suggest remedies for whatever evils he may find.

THE WARREN HOUSE.—This popular hotel has met with another change which we think will be hailed with pleasure by the old patrons of the establishment. Mr. Sam. D. Smith, the original proprietor has purchased a half interest in the furniture and business and will, on and after the first of July, assume the entire management. He will proceed, in the first place, to expend three or four thousand dollars in refitting and refurnishing the house, and will then conduct the house in first-class style. Everybody knows Sam can do it.

REGATTA.—The regatta which we have mentioned as talked of for the 5th of July, has been determined upon, as we learn. The start is to be made at some point opposite the city, and the race will be to go around a buoy below the city, thence up the river and around a buoy near the foot of Ross' Island and back to the place of starting. As soon as all preliminary arrangements are completed, an authoritative announcement will be made of all particulars.

FRONT SEATS RESERVED FOR LADIES.—As there will, undoubtedly, be a rush for seats at the Theater this evening, we are requested to announce that all seats in the dress circle will be sold at one price, but that front seats will be reserved for ladies and gentlemen escorting ladies. To prevent confusion in this behalf, those who wish to secure seats for ladies should call at eleven o'clock or early thereafter. The ticket office will be open from eleven A. M. till two P. M.

U. S. CIRCUIT COURT—DEADY, JUDGE.—John R. Lamb, et al., vs L. M. Starr, et al. petition by complainants for execution to issue in accordance with the decree in said cause. Taken under advisement. Hill for petitioners.

Benj. Stark vs L. M. Starr; action to recover possession of real estate. By consent this cause is set for trial on the 1st Monday of August next.

Adjourned until the 5th day of July next.

CONSTELLATION OF ATTRACTIONS.—With George Francis Train, Ben. Holladay and the East Side Railroad, the consolidated, double-ender, Great Eastern Circus, the 4th of July, and the big ox, all crowding upon us together, the Portlanders can scarcely complain of a lack of something to lend them excitement. Everything goes!

BURNING UP.—Mr. Jamison informs that all the late sown grain in Washington and Yamhill counties, is suffering greatly for want of rain. The yield from spring crops will not be more than half what it usually has been. Grass is even worse off than grain. It is going through the process of what the farmers call "burning up," and will not turn out half a crop.

SHIPPING NEWS.—Capt. Brown, who came as Pilot on board the *Oriflamme*, informs us that the bark *Fidelite* is at St. Helens. She came in over the bar on Saturday. Another bark attempted to come in the same day, but Capt. Brown thought she put to sea again. She could not be made out. The *Whistler*, *Almatia* and *Hattie C. Besse* are due and are probably off the bar.

GOING EAST.—We learn that Mr. James Stephens, of East Portland, is intending to leave by the steamer *Oriflamme* for San Francisco, and thence overland to the Eastern States. Mr. S. has been a resident upon the east bank almost ever since Mt. Hood was a hole in the ground.

RIVER IMPROVEMENT.—We give the following item as we find it in a late number of the San Francisco *Bulletin*: "Gen. Thorn, of the United States Engineers, has contracted with a firm in New York for an excavation across the bar of Portland, Oregon, harbor."

I. O. O. F.—The following is a list of officers elected in Olive Lodge, No. 13, at Salem, to serve for the term beginning July 1st: S. R. Woodbury, N. G.; L. J. Crawford, V. G.; L. S. Dyar, R. S.; L. S. Scott, Treasurer.

TO SAIL.—The [illegible] *Alaska* will sail from St. Helens for Honolulu on Friday next.

WARM DAY.—Yesterday the thermometer stood at 90° in the shade—warm enough to do without overcoats.

The San Francisco *Chronicle* is authority for the statement that a volunteer force of citizens is organizing there for the protection hereafter of Chinese immigrants on their landing and through the streets to their quarters. This step has been made necessary from the persistence of white ruffians and loafers in mobbing together and attacking the Chinese.

From all parts of the country says the Santa Clara (Cal.) *News*, we hear complaints of the ravages made by rust. In Fremont Township numbers are cutting their crops for hay, as this is the only remedy. One farmer, it is estimated, will have 1,800 tons. We are under the impression that not one-third of the present crop will amount to anything, and will be a total loss.

Notice.—The Foremen of the Fire Department are requested to meet at the Council Chamber this Tuesday evening at 8 o'clock. A full Board is desired.

W. H. WEED, Chief Engineer.

LUNCH.—The proprietors of the INTERNATIONAL SALOON, will hereafter serve LUNCH, morning and evening, as good as may be found in any Saloon on the Coast. Call and try it.

"LIFE SAVINGS AND LOAN BANK.—The people of the city patronize the OREGON DISPENSARY in order to save money and procure a loan of longer life by using our FRESH, PURE and RELIABLE remedies, which are daily dispensed and preferred by the MOST RESPECTABLE and TALENTED PHYSICIANS in this city. Every-Body takes a pull in patronizing our Store and thereby obtain DIVIDENDS by purchasing not only their medicines but also their toilet articles and other *nicks*, too numerous to mention. People say it is a pleasure to get sick and be cured at the Oregon Dispensary.

NATIONAL
LIFE INSURANCE COMPANY,
OF THE
UNITED STATES OF AMERICA,
Washington, D.C.
CHARTERED BY SPECIAL ACT OF CONGRESS!
APPROVED JULY 25, 1868.
CASH CAPITAL,
$1,000,000.

OFFICERS:
CLARENCE H. CLARK, Philadelphia, President.
JAY COOKE, Chairman Finance & Executive Committee.
HENRY D. COOKE, Washington, Vice President.
EMERSON W. PEET, Philadelphia, Secretary & Actuary.
R. S. TURNER, Washington, Assistant Secretary.
FRANCIS G. SMITH, M. D., Medical Director.
J. EWING MEARS, M. D., Assistant Medical Director.

THE ATTENTION OF PERSONS CONTEMPLATing Insuring their lives, or increasing the amount of insurance they already have, is called to the special advantages offered by the NATIONAL LIFE INSURANCE COMPANY.

NO MONEY SENT OUT OF THE STATE.

ALL PREMIUMS RECEIVED INVESTED IN THE STATE.

THE ADVANTAGES OFFERED ARE:

It is a National Company, chartered by special Act of Congress, 1868.
It has a Paid-up Capital of $1,000,000.
It offers Low Rates of Premium.
It furnishes Larger Insurance than other Companies for the same money.
It is Definite and Certain in its Terms.
It is a Home Company in every locality.
Its Policies are Exempt from Attachment.
There are no Unnecessary Restrictions in the Policies.
Every Policy is Non-forfeitable.
Policies may be taken which Pay to the Insured their Full Amount and Return all the Premiums, so that the Insurance costs Only the Interest on the Annual Payments.
Policies may be taken that will Pay to the Insured, after a certain number of years, During Life, an Annual Income of One-Tenth the amount named in the Policy.
No Extra Rate is charged for Risks upon the Lives of Females.
Insures Not to Pay Dividends, but at so low a cost that dividends will be impossible.

Its Policies are Negotiable.

By the Charter of the Company, certificates of obligations will be issued, agreeing to purchase its Policies at their value which, when accompanied by the Policy duly assigned or transferred, are negotiable, and may be used as collateral security, in making loans from the Company or from other parties.

The Hon. Jno. S Sandford, Insurance Commissioner of Massachusetts, in his Report for 1868, speaking of Dividends in Life Insurance Companies, says: "The sooner such guarantees cease to be made, and such expectations created, the sooner Life Insurance will come to rest on its true motive, and men insure their lives for security, and not for dividends. The best and most popular companies will then be those that promise only equity, and render all that they promise, and furnish the best security, with the most upright and judicious management."

"By the Stock plan, the full cash effect of the Premium is immediately secured to the Insured, the Company taking ALL the risk. By the Mutual plan, the full value in Insurance of the Premium paid, is not secured to the Policy-holder, who takes a portion of the risk himself."

TUESDAY MORNING, JUNE 29, 1869.

Chinese Labor for the South.

We are continually advised by the telegraph and mails that there is a general movement in the Southern States to introduce Chinese labor to develop the latent resources of that section. At St. Louis an agency has been established to help this movement forward. It receives large assistance from Memphis, from New Orleans, from Mobile and from other Southern cities. Only a few days ago 5,000 Chinese passed from St. Louis down the Mississippi river to engage in agricultural labor. Public meetings are frequently held in the Southern States for the purpose of devising means of inducing the immigration of Chinese. We commend these facts to those narrow-minded Chinese hating and fearing Democrats of Oregon, who assert that the immigration of these people is certain to ruin the country. The Southern Democracy do not see it in that light. They want the labor of the industrious and patient Chinaman to produce cheap cotton, rice, sugar and tobacco, and thus swell the exports of the country and the profits of production. The farmers of the Pacific coast are equally in need of a class of labor which will enable them to produce wheat at rates which will pay for export, bring money into the State and help it forward in the career of improvement. If there is any white laborer who is afraid of such competition, let him get land of his own and become an employer of labor. There are millions of acres in Oregon which may be had for the taking. We think George Francis Train might do many persons in this State considerable good by repeating to some of the large audiences which will hear him the remarks he made to his Irish auditors in one of his lectures at San Francisco. "Why," said he, "are you so hostile to the poor Chinaman? Why not suffer him to do menial labor and let white workmen go up higher? Why don't you employ him yourself to do the drudgery? There is room for all; there is work enough to be done for a hundred years."

George Francis Train.

A man in a private station who possesses qualities which have given him celebrity in both hemispheres is certainly no ordinary man. People are personally differing in their opinion of George Francis Train. But let people say what they will, he possesses powers which are both rare and remarkable, and which produce no little impression upon communities with which he comes in contact. It is the fashion with some who desire to be reputed [illegible] to decry him as a mere compound of vain bombast and shallow conceit; but such a man as they describe could never [illegible] so large a hold upon public attention and [illegible] so wide a celebrity. Such powers as he possesses are the gift of nature; they are what the world calls genius, and are not to be [illegible] by any fixed rules or [illegible] by any [illegible] which make him so many [illegible] were not so. That there [illegible] out of [illegible] with [illegible] he always acts [illegible] is evident to [illegible]. It is said that he [illegible] so perhaps he [illegible] him and [illegible] in that he talks it [illegible] while they talk it with [illegible] gravity and prosy dullness. As [illegible] we hope soon to hear [illegible] his [illegible] one of Oregon. [illegible] may not be in all [illegible] is flattering to our [illegible] for he knows [illegible] how to [illegible] and ridicule [illegible] any of us know how to criticise [illegible] But this mode of [illegible] manners [illegible] with the Scottish accept-

[illegible] Awe give to boys [illegible] that they may learn speech.

Mr. Train's power over an audience is certainly [illegible]. There is a magnetic power in [illegible] way to the true orator; [illegible] of the severely wise will call it "[illegible]" to intimate that [illegible] any [illegible] absence of true oratory in a [illegible] whose action is so much at variance with [illegible] and established rules.

Work.

Fry Brothers, who has been absent for about two months in San Francisco making arrangements for the prosecution of railroad work here, arrived [illegible] on Sunday. We [illegible] that [illegible] tions are on [illegible] and the immediate resumption of operations on the east side of the river. According to the announcement made some time ago, a [illegible] amount of iron will be here within a few weeks of this time to lay the [illegible] from [illegible] to the Oregon [illegible] in Marion county. It is the intention, we hear, to put on force enough to insure the completion of this section of the road by the close of the year. Our people will now see that Mr. [illegible] is acting in good faith [illegible]. His enterprise should receive [illegible] at the hands of all our people. We have faith in it, and it is not the part of wisdom to receive with distrust or opposition any one who comes to help us in a matter so vital to our present interests and future prosperity.

In Earnest.

[illegible] say that the House Committee of Ways and Means, now in California will visit this city. It is thought that Mr. Sargent will come also.

It is becoming quite a matter of course to urge a reduction of the debt with each monthly statement. We are promised a decrease of $6,000,000 for June. Though this reduction is going on so steadily and rapidly we still hear some croakers asserting that the debt can never be paid.

The Democratic Committee of Arrangements for Independence Day at San Francisco [illegible] ordered their former action in regard to the colored people of that city and now offer to all colored men, colored civic and military societies, etc., an opportunity to participate in the ceremonies of the occasion. Is it not time for every one to ask the question, "Where are we drifting?" "Mongrelism" has certainly gained a great triumph in Democratic San Francisco!

We once used the term "laboring loafers" to describe a small company of idlers and [illegible] at Oregon city who were making a [illegible] because a few Chinamen had been employed in the woolen factory at that place. Some of the Democratic papers have revived this matter and are asserting that we habitually sneer at laboring men. It is not necessary to deny so pitiful a fabrication. But we [illegible] that the most worthless description of "loafers" are those persons who instead of going to work like men, keep up an eternal whining about Chinese competition, and complain that the poor, humble, ignorant Chinaman stands in the way of their advancement.

The *Herald* the other day had an article congratulating its readers on the supposed fact that the Typographical Union had refused to admit Lewis H. Douglass, a colored printer. From the tone of the *Herald* one would have supposed that a great political and social question was forever settled. But it turns out that the Typographical Union of Washington City has admitted Douglass by a majority of sixty-five votes. Surely the times are sadly out of joint when a "nigger" is allowed to work for a living!

Letter from Cleveland, Ohio.

CLEVELAND, Ohio, June 12, 1869.

EDITOR OREGONIAN:

Permit me to address the people of Oregon through your columns upon a very important subject, namely, that of emigration. There are many persons here who wish to go to Oregon, but the arrangements for getting there are as yet so uncertain and indefinite that they do not like to start until they can feel certain of abundant opportunities, at reasonable rates, for transportation from the railroad to the interior of the State. The party with which I am identified, and which to have been on the way weeks ago, concluded to wait until the 1st of July, go by the Union Pacific railroad as far as Salt Lake; thence, of course, they must go by wagon. The question now is will the opportunities for obtaining wagons be good, and the rates reasonable. M. B. Burke will be provided with one wagon sufficient to accommodate the ladies of his original party, but accessions will be made for those whom he cannot provide wagons.

Why cannot the people of Oregon who are anxious for the peopling and development of the country unite in an effort to make transportation comfortable, convenient and cheap? It will be generally our best class of young farmers and mechanics who will go out there. Those of you already settled will of course be the gainers in every respect, by a large emigration. Many persons here now are looking westward with longing eyes. I have written, talked and coaxed railway officials from here to Omaha to reduce rates to us, and have succeeded admirably, and am hourly expecting similar results from letters written to the officials of the Union Pacific railroad. Many persons here say to me, "when you get there and can report the entire expenses and conditions of travel, if you find the country what it is represented, we will come next Spring." I am, although a stranger to your subscribers, and your homes, yet very desirous of seeing our whole country developed. I am very anxious to see many of the over-worked men of this city find for themselves and families good homes, and a chance to "lay up something for a rainy day." Now I appeal to you not to let "everybody's business be nobody's business," but set yourselves to work to devise ways and means for your own benefit as well as that of your future neighbors, wives and friends.

OREGON.

California papers say that a great deal of Oregon stock (cattle and sheep) has recently arrived in different parts of that State.

Dr. Veatch, who has visited the Bohemia mines, says he is satisfied that there is gold bearing quartz in the district that will justify capitalists in undertaking its development.

The Albany *Democrat* says: We regret to learn that the continued hot weather has considerably damaged the wheat crop of this county. This is a great disappointment to our farmers, who anticipated a much larger crop than ever before.

From the Roseburg paper: Farmers on Deer Creek have commenced cutting their oats, and though the prospect a few weeks ago was considered favorable for a large yield of grain of every description, it is now certain that the yield will be moderate. The crop of hay which is now mostly gathered, is also small, and if it were not for the old hay on hand this article would command a much higher price than usual the coming fall.

GENERAL NEWS ITEMS.

The Mission and Pacific woolen mills at San Francisco have decided to erect two large woolen mills, each 300 feet long, 150 feet wide and four stories high.

It is announced that Senator Sumner, on the invitation of Nye, of Nevada, will visit that State and this some time during the present summer. He will accompany Nye to the leading silver mines of Nevada, and finally bring up at San Francisco.

Quite an extensive task is undertaken by a society in Springfield, Illinois, which proposes to form a collection of all books, pamphlets, and newspaper and magazine articles, relating to President Lincoln and the war. It is the intention to deposit them in a room in the foundation of the Lincoln monument.

Our cavalry are acting vigorously in conjunction with the "broad brims" upon the Indian trail. Salvation by righteousness in one hand and a flaming sword in the other appears to be the only effectual policy of those Governments who have received the "heathen as an inheritance." We are absorbing our legacy rapidly.

The Harrisburg correspondent of the Philadelphia *Inquirer* details the particulars of an interview he had with Governor Geary in reference to the rumor that the Governor had been tendered a position in the Cabinet. Governor Geary emphatically denied the statement, and assigned its origin to a few personal enemies, who desire to convey the impression that he intends to withdraw from the Gubernatorial canvass in Pennsylvania.

Colonel Frank N. Wicker, of Lockport, New York, says the New York *Times*, has been appointed by Secretary Boutwell as Special Treasury Agent for the Sixteenth Customs Revenue District, with headquarters at Sitka, Alaska. This district includes the whole line of coast of Alaska, including the Aleutian Islands, as well as the coast of Oregon and California to San Francisco. Colonel Wicker was the second in command of the Russo-American Telegraph Expedition, and is thoroughly acquainted with the coast and its inhabitants. He will leave this city by the middle of June for his post of duty.

From the San Francisco *Bulletin's* New York letter: It is announced that Jay Cooke & Co., the parties who so successfully put our national debt on the market and made it a popular loan, have undertaken to put through the Northern Pacific Railway, which is to run from Lake Superior to Puget Sound. What they are going to do I cannot say, but as a first move they have engaged the same gentleman who wrote up the Five twenty loan to attend to the case and induce the public to take stock in the enterprise. Jay Cooke & Co. have a great amount of capital, and their names will go very far toward establishing confidence in the minds of the public. The Minnesota roads will be pushed forward rapidly to complete the network to feed and be fed by the Northern Pacific line. The movers in the enterprise are confident that the road can be finished in four or five years and it can be, if they can use the same energy that was shown in the present Pacific Railway.

ELEGANCE DOES NOT MAKE A HOME.—I never saw a garment too fine for man or maid; there was never a chair too good for a cobbler, or cooper, or king to sit in; never a house too fine to shelter the human head. These elements about us, the gorgeous sky, the imperial sun, are not too good for the human race. Elegance fits man. But do we not value these tools of housekeeping a little more than they are worth, and sometimes mortgage a home for the mahogany we would bring into it? I had rather eat my dinner off the head of a barrel, or dress after the fashion of John the Baptist in the Wilderness, or sit on a block all my life, than consume all myself before I got to a home, and take so much pains with the outside that the inside was as hollow as an empty nut. Beauty is a great thing, but beauty of garments, house, and furniture is a very tawdry ornament compared with domestic love. All the elegance in the world will not make a home, and I would give more for a spoonful of real hearty love than for whole shiploads of furniture, and all the gorgeousness that all the upholsterers of the world could gather together.—*Theodore Parker.*

LAST NIGHT'S DISPATCHES.

Political Matters in Virginia.

WASHINGTON, June 27.—Both political parties in Virginia are making increased efforts in the canvass. It will be a close contest. Gen. Van Wyck, of New York, starts to-morrow for Fredericksburg, Richmond and other places to make speeches for the Wells' ticket, by invitation of the Republican State Central Committee.

Financial Matters.

WASHINGTON, June 27.—Retrenchment in most of the Departments is being rapidly enforced. A number of clerks were discharged Saturday, and there will probably be many more dismissals on Wednesday, at the close of the fiscal year.

The public debt statement will appear on Thursday and show a reduction of about $6,000,000, but the yearly statement, which will be issued later will probably show $2,000,000 greater reduction. About $28,000,000 of currency and $90,000,000 of gold are on hand.

Tennessee Politics.

CHICAGO, June 28.—A Washington special says the President's views on the political situation in Tennessee will probably be indicated in the appointment of a new Supervisor in that State, to succeed Noah who resigned. The Senter party is for the immediate enfranchisement of all citizens; the Stokes party for gradual enfranchisement. Brownlow supports Senter, so do most of the Democrats. Both parties are seeking influence with the Administration, and the situation has been talked over in the Cabinet. Some parties fear the success of Senter will throw the State into the hands of the Democrats and result in the election of Andrew Johnson to the Senate.

WASHINGTON, June 27.—A special from Nashville says the order of Chancellor Smith appointing a receiver to take charge of the corporation of Nashville created much excitement. The greater number of the citizens received the action favorably, but others look upon it as a high handed usurpation over the city of Nashville and an abuse of the judicial authority. They say that the appointment of a man living outside the district to collect taxes, borrow money, disburse funds and perform all the functions which the people elect officers to perform, is a violation of the city charter and opposed to the nature of American institutions, and is unparalleled in the history of the country. It is not known whether Mr. Ross, the Receiver, will attempt to oust the present city officials or leave them in their places and operate through their agency. He is required to give bonds in the sum of half a million dollars for a faithful performance of his duty. Some think he will be unable to give bonds such as the Clerk and Master of the Chancery Court of Nashville will accept. If the Receiver attempts to oust the present city officials there will probably be trouble.

More Congressmen Coming West.

ST. LOUIS, June 27.—Several members of the Congressional Committee on the Pacific Railroad are in this city, where they will be joined on Thursday by other members, and will proceed over the Kansas Pacific railroad to Denver and Cheyenne.

Miscellaneous.

BALTIMORE, June 27.—The remains of John Wilkes Booth were interred in the family lot yesterday in the presence of the family and a few friends.

WASHINGTON, June 27.—Hamilton Taylor has been appointed Collector of Customs at Port Shieldsboro on the Gulf coast of Mississippi. The widow of the late incumbent was an applicant and strongly recommended by Senators Harris and Kellogg, but the Secretary decided that women are not eligible.

KEY WEST, June 27.—The U. S. steamer *Narragansett* has six officers and three men sick of yellow fever, but all doing well. She sails for Portsmouth, N. H.

NEW YORK, June 27.—The latest returns from the vote on lay delegation in the Methodist Church as received at the office of the *Methodist* in this city, to Saturday evening, May 26th, is as follows: Whole number of votes cast 33,455; for lay delegation, 27,587; against, 10,871.

WASHINGTON, June 27.—Horse cars will be placed on the streets of Wilmington, N. C. This, the first enterprise in that State, has been accomplished by carpet-baggers.

At an auction of velocipedes prices brought ranging from $5 to $30. About forty were sold. Many were withdrawn for want of bidders.

A plot to throw a freight train from the track for the purpose of robbery has been discovered and the conspirators arrested.

Horace White and J. D. Carter are now at Salt Lake on an excursion over the Pacific railroad. They telegraph that Morris' report is in all essential particulars, nonsense. The Union Pacific is undoubtedly the best constructed road, considering it is the newest, ever built in this country. Richardson's letter to the *New York Tribune* bears the same testimony. That portion of the track laid while the ground was frozen will soon be made equal to any other portion of the road, and will be first-class in all respects.

CHICAGO, June 27.—The first pig iron produced by the Grand Tower, Illinois Mining and Manufacturing Company, whose works are located in the Southern portion of the State, on the Mississippi river, has been turned out. It is said to be of a very superior quality. The company are rich and own a large area of coal land in Jackson county, Illinois, and a large quantity of valuable iron land in Missouri, opposite their works. The company design making all kinds of rail and rolled iron.

A freight train of the N. W. railroad ran off the track between this city and the Mississippi river yesterday, detaining regular trains nine hours. The accident was caused by damage to the track from late heavy rains which have been unprecedented in the Northwest.

Cuban Affairs.

NEW YORK, June 27.—For some days, several prominent Cubans, holding official relations to the Revolutionary Government of Cuba, have been in Washington. They had an interview with the President, several members of the Cabinet and prominent Senators. Assurances have been given to them of sympathy with the Cubans in their struggles, and they state that a Government agent will be sent to ascertain the strength and prospects of the Revolutionists, and if their opinion is favorable, the belligerent rights of the Cubans will be recognised by Government.

The *Tribune* says the steamer *Catherine White*, which cleared for Galveston on Friday, was seized on Saturday night when about leaving the harbor on suspicion of being a Cuban revolutionary transport. She was partly laden with hay and provisions.

WASHINGTON, June 27.—The *Tribune's* New York special says Cuban sympathisers say 110 men sailed on Saturday night by a steamer, supposed to be the *Quaker City*. Another steamer from Southern ports with 400 men will meet her at sea and accompany her to Cuba. It is said the *Quaker City* has been laying off the coast ever since her departure, and has been supplied with coal by a schooner from Philadelphia. No more recruits will be received at present, the Junta being confident that this expedition, added to previous ones, will secure the independence of Cuba.

Members of several Fenian circles held a meeting on Saturday night and passed resolutions of sympathy for Cuba. Some of their leaders have been in consultation with Cuban chiefs with a view of offering their services to the Cuban cause.

HAVANA, June 27.—Accounts have been received from Spanish sources of a fight between Government troops escorting a train of supplies, and rebels on the road between Puerto Del Padre and Los Tunas. The insurgents attacked the Spaniards and undertook to capture the train, but were unsuccessful. The rains are incessant and vomit is spreading.

Another World's Fair.

WASHINGTON, June 27.—It has been officially announced by the British Minister at the capital that an international exhibition of the products of the world's labor will be held at London in 1870. Mr. Thornton has been requested to make the matter known to the citizens of the United States, which he will do when more fully advised in regard to the details. The great aim is to develop personal labor throughout the world.

BY STATE TELEGRAPH.

SALEM, June 28.—The residence of Rev. W. F. West, fifteen miles south of this place, was burned to the ground last Saturday. The fire originated from fire used outside for washing purposes. Loss, $3,000.

Another fire occurred the same day about five miles from this city. Son of Mr. Pres. Larone, about five years old, took some matches, went out near the barn and lighted a small bonfire, from which the barn was set on fire. A number of hogs and a considerable quantity of hay and grain was burned. Loss, about $1,000. No insurance on either of the buildings.

A third fire broke out in one of the China wash houses in this city, on Saturday night. It was extinguished before any damage was done.

The Circuit Court set to day with a full and interesting docket.

FROM THE NORTH.

SEATTLE, June 26.—Another shock of earthquake occurred last night about eight o'clock, much heavier than before known in this vicinity. All the buildings on a line through the center of the town, commencing at the Occidental Hotel and terminating at Messrs. Atkins & Shoudy's wharf, were quite perceptibly shaken. No damage was done.

VICTORIA, June 28.—Another heavier shock of earthquake than the one of Tuesday morning last was felt here last evening at eight o'clock, bringing everybody into the street and causing much excitement. Another lighter one was felt by many, about midnight.

VANCOUVER, June 28.—On Saturday night Miller's tailor shop was entered by burglars and robbed of clothing and dry goods to the amount of $400. The suspected thieves are two men about five feet six inches high, one with a bruised eye, and the other has a scratched face and a chip marked on his breast. Fifty dollars reward is offered.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, June 28.—Hon. G. W. Julian, Chairman of the Committee on Public Lands, left for Yosemite valley and Big Trees via Stockton, this afternoon.

Senators Wade and Conkling left for the East on C. P. R. R., to day.

[Here the line broke.]

Amorous old gentlemen should take warning from the heavy verdict just awarded a maiden of thirty summers, at Wheaton, Ill., of $100,000 damages sustained by a breach of promise. The defendant in the case is somewhere above sixty years of age and worth a million of dollars in Chicago property.

GO TO BUCHTEL'S GALLERY

IN THE FORENOON for the finest work in Photography—Sun Pearls, Cabinet Cards, and the beautiful MEZZOTINTS, (*late patent*)

Plain Photographs re-touched, part in Oil or Water Colors.

We have at our Rooms on hand an article of Old O. K. Cutter Whisky, to which we call the attention of connoisseurs "and defy competition." One call at the International Saloon will be enough to satisfy the most fastidious. JOHN S. SIREY & CO.

The Day fixed to commence work on the East Side Railroad is July 1st. By that time the Company will have sufficient Railroad Iron on the way or in Portland to complete twenty miles of road. Workmen without employment should be patient for the Company will give employment to a thousand men, at good wages, and of course KOHN & FISHEL will continue to sell the very best clothing in that time at remarkably low figures.

We, the undersigned Committee appointed to decid upon the merits of the washing done by Kane's Condensed Soap with common Boiler, and the Automatic Boiler, decide that the washing done by KANE'S CONDENSED SOAP is the best, doing the work in a superior manner with less labor, no rubbing being done in using Kane's Soap, but that boxes [illegible] used in the Automatic Boiler.

F M BATES, Esq ..... Lessee.

TO-NIGHT IS THE FIRST LECTURE OF THE Course of Four by the justly celebrated

GEORGE FRANCIS TRAIN, ESQ.,

Whose Eloquent Addresses through England for the cause of the Union has made his name famous the world over.

315th Successive Lecture,

On the Pacific Coast, and

141st of a Course of Six Hundred,

On his way

To the White House in 1872,

Since his incarceration in the Irish Bastiles.

TUESDAY EVENING, JUNE 29, 1869.

FIRST LECTURE.

Subjects:

HIS PASSAGE OVER WITH DURANT—The Pacific Railroad King.
HIS ARREST AT QUEENSTOWN.
INCARCERATION AT CORK.
BANQUET OF THE CATHOLIC CLERGY.
HIS RECEPTION AT YOUGAL, DUNGARVON AND CORK.
HIS INTERVIEW WITH THE CHIEF OF POLICE AT DUBLIN.
HIS SPEECHES IN THE ROTUNDA.
RELEASE OF GENERAL MAGLE AND JACKNEL AT SLIGO.
HIS SECOND ARREST AND THIRD JAIL INCARCERATION.
HIS BASTILE EPIGRAMS.
Some Terrible truths about Ireland—*See Semper Tyrannis*—Pay the *Alabama* Claims or Fight.
Release Citizens or War—Sell us Ireland for the *Alabama* Claims—What Americans think of the Irish.

CHANGE OF SUBJECT EACH LECTURE!

☞ Read what the press of other cities say of GEORGE FRANCIS TRAIN.

TRAIN IN NEW YORK.—Cooper Institute was never used to better purpose than on last evening for the closing lecture of the course by George Francis Train. Aisles and all were packed in every part. A lasting half an hour of the lecturer for eccentricities of the speaker, it may still be said truly that two hours were never used to better purpose by any lecturer in that hall. Of Mr. T.'s power over an audience, hereafter there can be no doubt. In some of the most impressive passages, the silence, with such a multitude, was fearful. At other times the applause was perfectly stunning. There was all the dramatic power and eloquence of Gough, with a display of practical knowledge on public affairs in every department now absorbing the national mind, everywhere, as well as in Washington, particularly on the Finance questions and our present serious and complicated relations with Great Britain, that many Goughs do not possess, and of which Congress and the Government would do well to avail themselves, in their present bewildered and vagabond state. No report of the lecture would be possible. As easily photograph chain lightning, as well stenograph the "rushing mighty wind and cloven tongues of fire," on the day of Pentecost. From eight o'clock till ten the vast multitude was held almost as if entranced. Every allusion to the freedom of Ireland, to Father Matthew and Temperance, to the cause of Woman Suffrage and the laboring classes, was received with thunders of applause. His exposition of the way the products of American labor are filched away by British capitalists, with the direct connivance of our own Government, that both directly and indirectly, privately and publicly, adapts its policy to that very end, several times aroused the enthusiasm of the audience up to the point of immediate war.

Altogether, the address was one of which no possible human report can convey an adequate idea. And it is not remarkable that the lecturer has more calls from every part of the country, to speak, than there are days and nights, and that he is everywhere greeted with crowded houses.—*New York Round Table.*

Take your reserved seats early in the day—no extra charge. These extraordinary Lectures are largely attended by ladies.

☞ 45,000 persons attended Mr. Train's 23 consecutive lectures in San Francisco, a success unparalleled on the Pacific Coast.

Dress Circle, $1 00. Gallery 50 cents.
Doors open at 7 o'clock; commences at 8 o'clock.
Seats reserved at Theater from 11 until 2.
